## Summary:

Aspiring Front-End Developer with a strong foundation in web development technologies. A recent graduate with a degree in BSc (Computer Technology), passionate about creating seamless and user-friendly applications. Proficient in front-end, eager to contribute innovative solutions and collaborate in a dynamic team environment. A quick learner with a dedication to staying current with emerging trends in the tech industry

## Education Background:

- **DEGREE (2021-2024)**

  Pursuing Bachelor of Science in Computer Technology at Dr. N.G.P. Arts and Science College, Coimbatore with 68%

- **HSC(2020-2021)**

  St. Joseph's Higher Secondary School, Ooty with an aggregate of 77%

- **SSLC (2018-2019)**

  The Oxford Continental School, Ooty with an aggregate of 61%

- **Qtree-Technologies**

  Successfully completed React.js course, mastering fundamentals, component-based architecture, state management, routing, and practical UI development

- **Internship**

  XYLOINC. IT Services and IT Consulting, Coimbatore

## Technical Skills:

**Frontend Development:** HTML, CSS, JavaScript, Bootstrap, React Js ,Angular, Tailwind CSS, Material UI, Redux

**Backend Development:** Node Js, Express Js

**Database:** MongoDB

**Security:** JWT (JSON Web Tokens)

**Source Control:** GitHub

**Others:** Postman, Swagger

**Projects:**

**PROJECT TITLE:** E-Commerce Platform
**PROJECT DESCRIPTION:**

Developed a full-fledged e-commerce platform using the MERN stack. Implemented user authentication and authorization functionalities using JSON Web Tokens (JWT). Integrated with a payment gateway for secure transactions. Features include product catalog, user cart management, order tracking, and admin dashboard for managing products, orders, and users

**PROJECT TITLE:** Task-Manager-Application
**PROJECT DESCRIPTION:**

The Task Manager Application is a web-based platform designed to help users efficiently manage their tasks and increase productivity. Built using React, this application provides an intuitive and user-friendly interface for creating, organizing, and tracking tasks.

**PROJECT TITLE:** Personal Portfolio Website
**PROJECT DESCRIPTION:**

Developed a responsive and dynamic portfolio website using React, showcasing personal projects, skills, and experiences. The website serves as an interactive platform to display my professional journey, skills, and accomplishments.

**PROJECT TITLE:** Invoice Generator
**PROJECT DESCRIPTION:**

An Invoice creator project built with React. Add itemized items, configure quantity, prices, tax rates and discounts. Download Invoice as PDFs to your device. Uses jspdf-react to capture the data from the modal and covert it from canvas -> pdf.

**PROJECT TITLE:** Inventory Management System
**PROJECT DESCRIPTION:**

Developed an Inventory Management System utilizing React's useReducer hook, Axios for HTTP requests, and JSON Server as a mock REST API. The system enables streamlined tracking and management of inventory items, including functionalities for adding, updating, and deleting items. Employed React components to craft an intuitive user interface for seamless interaction with the inventory database. This project highlights expertise in frontend development, state management, asynchronous data handling, and RESTful API integration.

**Personal Info:**
**Date of Birth**: 17-02-2004,
**Gender:** Male,
**Languages Known:** Tamil, English, Kannada
**Nationality:** Indian
**Hobbies:** Playing Football, Cricket and Watching Movies
